Steps:

Prepare your cocktail glass. Make sure it is ice cold before pouring your cocktail in. Do this by filling it with ice, but make sure you take the ice out before serving

Add all ingredients to shaker over plenty of ice

Shake ingredients well, then strain into a chilled cocktail glass (Martini glass is best). For an ultra smooth Cosmopolitan strain through a fine sieve

For an extra special cosmo frost the rim of the glass with sugar

Garnish with an orange slice or orange peel and straw

Ingredients:

25ml vodka

10ml Triple Sec

5ml fresh lime juice

Dash of cranberry juice
